First attempt

Simple R code

```
a <- 10
b <- 20
myVec <- rnorm(5)
a + b
```

```r
## [1] 30
```

```
range(myVec)
```

```r
## [1] 0.5571 1.9197
```

Now test if it will write text within the document, the sum of the above analysis is 30.

Creating a plot

```
plot(1:10, col = "red")
```

![Figure 1: plot of chunk simpleplot](image)
Conclusion

Isn’t that grand and super.
